PROFESSIONAL SUMMARY

Six years architecting and building web platforms end to end. Founded MyHealthCop as CTO and designed the full platform across three apps, AWS infrastructure, and a multi-cloud disaster recovery strategy on GCP. Founded GTBank Ghana's DevOps practice and now run the on-prem Kubernetes platform behind 1.5M+ daily core banking transactions on 800+ pods at 99.97% uptime. Comfortable bridging stakeholders and engineering because I have led both sides.

CORE COMPETENCIES

End-to-end web application architecture

Multi-cloud design (AWS, GCP, Azure, OCI)

Microservices, event-driven, serverless

API design and integration architecture

Database architecture (Postgres, Redis, Mongo, DynamoDB)

Security, observability, disaster recovery

Cross-functional team leadership

PROFESSIONAL EXPERIENCE

Guaranty Trust Bank Ghana LTD May 2025 - Present

Core Banking Services Lead

Accra, Ghana

- Architect integrations between Finacle core banking and third-party systems including transaction portals and internal tools, with versioned APIs and audit-grade logging.
- Designed and built a bank-wide OTP service (Next.js + Django) integrating SMS and email gateways for 600+ internal users, with structured logging to Elasticsearch via Filebeat.
- Designed a national ID verification service (Next.js + Django) processing and storing ID documents in self-hosted MinIO with automated verification and customer record updates.
- Own the on-prem Finacle core banking deployment on Tanzu Kubernetes Grid: deployments, patching, and incident response across 800+ production pods sustaining 1.5M+ daily transactions.
- Lead L2 support, correlating logs across internal apps and core banking microservices via the Elastic Stack for root cause analysis.

Guaranty Trust Bank Ghana LTD Apr 2024 - Present

DevOps Engineering Lead

Accra, Ghana

- Architected high-availability Kubernetes clusters across multiple on-prem environments running internal applications handling 3M+ daily requests with 99.97% measured uptime.
- Founded the bank's DevOps team of 4 engineers from zero; brought all 4 to on-call competence within 90 days.
- Implemented CI/CD that cut deployment time by 90% and increased release velocity 5x; introduced GitOps with FluxCD; integrated Veracode and Trivy for automated security scanning.
- Introduced a unified observability stack (Prometheus, Grafana, Elastic Stack, Sentry) for centralised logging, tracing, and real-time alerting.
- Automated 95% of infrastructure configuration management using Ansible, Python, and Bash, replacing multi-day manual processes with reproducible deployments in minutes.

Chief Technical Officer (Founding)

Accra, Ghana

- Architected the myhealthcop.com platform end to end across requirements gathering, system design, database modelling, and API development. Delivered three apps: a patient Flutter app (iOS + Android), a Flutter app for health professionals, and a React admin web dashboard.
- Designed secure AWS infrastructure running containerised microservices on EKS and ECS alongside Lambda functions for event-driven workloads, with autoscaling, load balancing, and inter-service communication.
- Designed a disaster recovery strategy mirroring the AWS production environment on GCP using GKE, Cloud SQL, and Cloud Storage, with secure VPCs, IAM policies, and dual-environment CI/CD for rapid failover.
- Built a high-throughput background processing system handling 1M+ daily jobs across payments, messaging, and notifications using SQS and SNS, with multi-provider failover for SMS, email, and payment providers.
- Led performance optimisations that reduced peak request latency by 90% through Redis caching, query tuning, and PostgreSQL indexing.
- Led a 12-person cross-functional team (frontend, backend, mobile, product, design, QA) under Agile/Scrum.

PROJECTS

Virk Cloud - Platform-as-a-Service Founder and CTO · Aug 2025 - Present

Architected a PaaS for startups with built-in CI/CD, observability, and log streaming. Manage underlying RKE2 Kubernetes infrastructure on private VPS.

Stack: Next.js, Kubernetes (RKE2), FluxCD, Terraform, Prometheus, Grafana

Digital-Recon - Transaction Reconciliation Engine Founder · 2025 - Present

Real-time transaction reconciliation engine for financial institutions. Detects discrepancies across heterogeneous data sources (relational DBs, APIs, Elasticsearch) using Kafka for ingestion and Celery for scheduled and on-demand reconciliation jobs.

Stack: React, TypeScript, Python, Celery, Kafka, Elasticsearch, PostgreSQL

Vistara - Property Tenant Assessment Platform Founder · 2026 - Present

Multi-app platform helping renters evaluate housing conditions before signing leases. Built landing page, tenant web app, admin web dashboard, and admin Flutter mobile app for field data collection.

Stack: Next.js, React, TypeScript, Flutter, Codemagic CI/CD

EDUCATION

BSc Computer Engineering · Ashesi University

Sep 2016 - May 2020

Berekuso, Ghana

PROFESSIONAL CERTIFICATIONS

Oracle Certified Architect Associate · Oracle	Aug 2025
Oracle Certified DevOps Professional · Oracle	Aug 2025
AWS Certified Cloud Practitioner · AWS	May 2024
AI Engineering Specialization · ByteByteAI	Mar 2026

TECHNICAL SKILLS

Cloud and Infrastructure: AWS (EKS, ECS, Lambda, S3, SQS/SNS, EventBridge, DynamoDB, VPC), GCP (GKE, Cloud SQL, Cloud Storage), Azure, OCI, on-prem bare metal

Architecture Patterns: Microservices, event-driven, serverless, multi-region disaster recovery, integration gateways, idempotent processing

Containers and Orchestration: Kubernetes (EKS, GKE, TKG, RKE2), Docker, Helm, Istio

Languages and Frameworks: TypeScript, JavaScript, Python (Django, FastAPI, Celery), Node.js (Express), Next.js, React, Flutter, Tailwind

APIs and Messaging: REST, GraphQL, WebSockets, AWS SQS/SNS, EventBridge, Kafka, RabbitMQ

Databases: PostgreSQL, MySQL, MongoDB, Firebase, DynamoDB (single-table and multi-table), Redis, Convex

CI/CD and IaC: Terraform, Ansible, GitHub Actions, FluxCD, ArgoCD, Azure DevOps

Observability and Security: Prometheus, Grafana, ELK Stack, Sentry, OAuth2, OIDC, Keycloak, JWT, LDAP, Veracode, Trivy
